HEALTH WARNING

Always play in a well lit environment. Take regular breaks, 15 minutes every hour. Discontinue playing if you experience dizziness, nausea, fatigue or have a headache. Some individuals are sensitive to flashing or flickering lights or geometric shapes and patterns, may have an undetected epileptic condition and may experience epileptic seizures when watching television or playing videogames. Consult your doctor before playing videogames if you have an epileptic condition and immediately should you experience any of the following symptoms whilst playing: altered vision, muscle twitching, other involuntary movement, loss of awareness, confusion and/or convulsions.

3D HEALTH WARNING

Some people may experience discomfort (such as eye strain, eye fatigue or nausea) while watching 3D video images or playing stereoscopic 3D games on 3D televisions. If you experience such discomfort you should immediately discontinue use of your television until the discomfort subsides.

Generally we recommend that you avoid prolonged use of your PlayStation®3 system and take 15 minute breaks during each hour of play. However, when playing stereoscopic 3D games or watching 3D video, the length and frequency of necessary breaks may vary from person to person – please take breaks that are long enough to allow any feelings of discomfort to subside. If symptoms persist, consult your doctor.

The vision of young children (especially those under six years old) is still under development. We recommend that you consult with your child's doctor or optometrist before allowing young children to watch 3D video images or play stereoscopic 3D games. Adults should supervise young children to ensure they follow the recommendations listed above.

Story Mode

15 years after the disappearance of the commercial towing vessel Nostromo, the ship's flight recorder is discovered floating in deep space. Its owner, the Weyland-Yutani Corporation, immediately dispatches a team of representatives to Sevastopol Station to retrieve it. Among their number is Amanda Ripley, daughter of Ellen Ripley, the Nostromo's warrant officer.

When the team arrives they find Sevastopol has been placed under quarantine and its skeleton crew is being hunted by an unseen foe; a monster that cannot be stopped.

Separated from her team, Amanda finds herself trapped on a station filled with desperate survivors, an implacable AI and the ultimate predator. The truth about her mother's fate is here somewhere, but first she must simply survive.

Survivor Mode

Survivor Mode challenges the player to a one-on-one confrontation with the Alien deep within the bowels of Sevastopol Station. They must use every tool available to them to complete a number of objectives and ultimately escape.

The player's final score will be posted to the Survivor Mode leaderboards and is determined by how efficiently they navigated their environment and how successfully they avoided their hunter.
